

Hazardous Substances Compliance Report

Professional Regulatory Analysis for IT/Electronics Products

Executive Summary

This compliance report analyzes laptop for regulatory requirements in United States. Based on our analysis of 5 components, the overall compliance status is: **EU_COMPLETE**.

Business Context

Company Role:	Producer
Company Location:	Germany
Target Markets:	United States
Product Category:	Computing & Telecommunications
Report Generated:	2025-08-22 15:59:09

Product Information

Product Description:	laptop
Product Category:	Computing & Telecommunications
Product Type:	Computing & Telecommunications
Expected Volume:	< 1,000 units

Applicable Regulations

Regulation	Authority	Status	Priority
FCC Regulations	Government Authority	Active	Standard
CPSIA	Government Authority	Active	Standard
California Proposition 65	Government Authority	Active	Standard

TSCA	Government Authority	Active	Standard
------	----------------------	--------	----------

Materials Analysis

Analysis of 5 components:

Component	Substance	Concentration	Compliance
LCD Display 15.6 inch	Lead (Pb)	850 ppm	COMPLIANT
Lithium Battery	Cobalt	12000 ppm	COMPLIANT
Plastic Housing	Brominated Flame Retardants	2500 ppm	COMPLIANT
CPU Processor	Gold	45 ppm	COMPLIANT
Note: Example rows (gray) can be deleted		nan	COMPLIANT

Compliance Summary

Overall Status:	EU_COMPLETE
Components Analyzed:	5
Regulations Applied:	4
Verified Sources:	65
Analysis Date:	2025-08-22

Recommendations

- 1. Ensure all supplier declarations are current and complete
- 2. Verify substance concentration data accuracy with suppliers
- 3. Monitor regulatory updates for target markets
- 4. Implement regular compliance reviews as regulations change
- 5. Consider third-party testing for critical components
